FEATURED TECHNICAL PROJECTS

AI Fitness Buddy — Voice-Enabled Health Platform | *Next.js, React, Tailwind, Convex, Clerk, Gemini AI, Vapi AI*

- Built an AI-powered fitness web app generating personalized workout and diet plans via the Google Gemini API based on user goals and health data.
- Integrated Vapi AI to power a real-time voice assistant for hands-free coaching and natural-language Q&A.
- Modeled reactive Convex schemas for instant state sync, tracking user progress and workout history.
- Implemented Clerk authentication for secure, cross-device user sessions.

AI SaaS Dashboard | React.js, JavaScript, HTML, CSS, Bootstrap

- Built a responsive AI SaaS platform UI with authentication, protected dashboard, AI tool modules, history, profile, pricing, and settings.
- Developed reusable components for AI chat, text summarization, email/blog/code generation, loading states, and result management.
- Implemented responsive sidebar navigation, dark/light mode, search functionality, and copy-to-clipboard interactions.
- Created responsive charts, dashboard cards, authentication UI, profile, and settings pages.

Car Rental Platform | React.js, JavaScript, HTML, CSS, Bootstrap

- Built a responsive car rental platform with vehicle listings, detailed specifications, availability, search, filtering, and booking interfaces.
- Implemented filters for price, brand, fuel type, and transmission along with reusable vehicle cards and booking forms.
- Added responsive navigation, animations, hover interactions, and mobile-friendly layouts.

Job Portal | React.js, JavaScript, HTML, CSS, Bootstrap

- Developed a responsive job portal interface for candidates to search, filter, view, and apply for job opportunities.
- Built job listings and detail pages with company information, job type, location, requirements, salary, and application interfaces.
- Created candidate and employer dashboard UI with job posting, editing, deletion, saved jobs, and application workflows.

CERTIFICATIONS & CONTINUOUS LEARNING
